

Disinfection and Deep Cleans

Where Innovation meets Aviation Support. Trust AccuFleet International to provide professional disinfection (antiviral and antibacterial) and deep cleaning. Make every turn a clean flight for your passengers and crew.

Now, more than ever, the industry recognizes the importance of disinfection, and you can count on AccuFleet International to provide the highest level of service for your fleet's RON, deep, MEC, ultraclean and/or disinfection program needs. Count on AccuFleet to provide the ongoing cleaning needed, while maintaining timely turns and safeguarding interior surfaces and fabric from COVID-19 and other viruses and bacteria.

Track disinfectant compliance on our proprietary reporting platform, iROD™, which enhances our event management capability, provides reporting and proof of service delivery, and allows you the ability to track, export reports, and measure efficiency. We can also help manage additional cycled events.

Trust AccuFleet to maintain your schedule with the right staffing for each turn.

AccuFleet Provides:

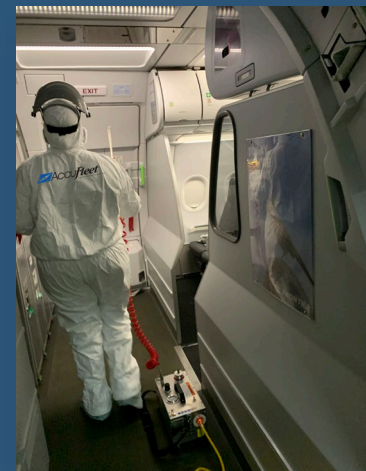

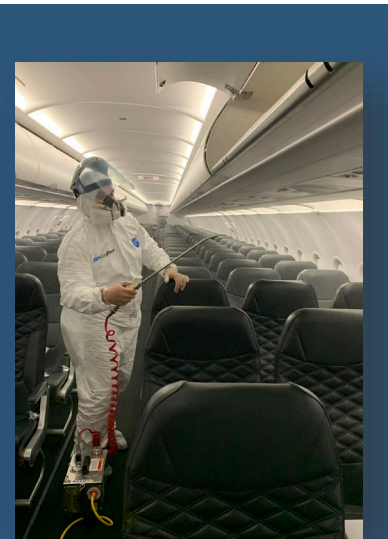

- Trained, badged, and certified staff
- FAA certified products to provide hospital-grade disinfection on all interior surfaces
- Multiple locations to provide the widest selection of RON deep clean/ultra-clean opportunities to your entire fleet
- Do no harm – products approved for usage on your cabin materials by the manufacturer (Boeing/Airbus/Embraer)

We invite you to learn more about how AccuFleet International's disinfectant/deep clean service can maintain a safe, clean and healthy fleet.

We are experiencing a high demand for the service, so contact us today to learn how soon we can start providing disinfection/deep clean service in your location.
